cially developed in close cooperation with BBS Motorsport for the demanding sports.

and gently removes dirt, carbon deposits, and brake dust from painted and im, aluminum, and other light-metal alloys.

ng brass, bronze, zinc, and copper, as well as gray cast iron, stainless steel,

l formulation, RAVENOL Wheel Cleaner is also suitable for high-gloss In this case, special care must be taken during manual cleaning.)

**eaner** leaves a thin protective film on the rim surface that protects against imental influences.

ination of active ingredients is specially tailored to the demands of

## Application instructions

500 ml | 1360038-500  
Apply directly and evenly onto the (cooled) wheel rim so that all areas to be cleaned are covered. Allow it to sit depending on the degree of soiling (the product does not contain a color indicator). Afterwards, rinse thoroughly with a strong stream of water.

For gentle, manual cleaning, a suitable rim brush, sponge, the **RAVENOL Microfiber Cloths Car Care Set**, or the **RAVENOL Brush Detailing Set** may also be used; appropriate protective gloves should be worn.

Do not use **RAVENOL Wheel Cleaner** in direct sunlight. The surfaces to be cleaned must not be hot. Do not allow the cleaner to dry. Contact between the cleaner and other parts and components such as brake calipers, wheel bolts, suspension, etc., is harmless.

Note: Standard wheel cleaners should never be used on polished wheel areas, as these surfaces are particularly sensitive.

**RAVENOL Wheel Cleaner** should be stored in sealed containers in a cool, dry place. Protect from direct sunlight, heat, and frost. Keep out of reach of children. Wash hands thoroughly after use.

## Characteristics

- Effective and gentle cleaning action
- Developed in cooperation with BBS Motorsport
- Alkali-free formula
- Free of salts of inorganic acids
- pH-neutral
- Free of EDTA and NTA
- Contains no ionic tensides
