

RAVENOL AC-Fresh & Clean

Kategorie: Car care products

Artikelnummer: 1360075

0.15L | 1360075-150

RAVENOL AC-Fresh & Clean is a special spray for thoroughly cleaning vehicle air conditioning systems and refreshing the entire vehicle interior. The active ingredient neutralizes smell-causing deposits and residues and ensures noticeably fresher air and a better basic smell in the interior.

RAVENOL AC-Fresh & Clean has a neutral formulation that is gentle on materials and non-aggressive towards plastics. The active ingredient does not contain any biocides and has a carefully balanced, subtle fragrance.

RAVENOL AC-Fresh & Clean also works for vehicles without air conditioning systems.

Application instructions

RAVENOL AC-Fresh & Clean must be shaken well before use. Set the air conditioning to maximum cooling. Set the ventilation to maximum cooling. Set the ventilation to recirculation mode, select the highest fan speed, and close the windows.

RAVENOL AC-Fresh & Clean should be activated (the spray nozzle locks into position) and the can should be placed upright in the position in the vehicle interior where the air is drawn in most strongly (this is often the passenger footwell). **Then leave the vehicle and close the doors.**

RAVENOL AC-Fresh & Clean is completely emptied after approx. 2-3 min. The cleaning process is finished after 15 min. Then ventilate the vehicle thoroughly and set the ventilation back to fresh air supply.

Note:

We recommend applying this product once a year. Always follow the service and maintenance instructions provided by the vehicle manufacturer for cleaning air conditioning systems.

Do not store under pressure, above +50°C or in direct sunlight.

Characteristics

- Removes unpleasant smells from the air conditioning and ventilation system
- Neutral to plastics and filters
- Ensures a fresh interior climate
- For vehicle air conditioning systems and vehicle interiors
- The fresh fragrance is subtly formulated and pleasant
