**RAVENOL Premium Wash and Seal** is a vehicle shampoo designed to be particularly gentle on paintwork and coatings. The special formula contains selected active ingredients that clean, gloss and additionally seal the paintwork. Thanks to its powerful cleaning action, it removes road grime, fingerprints, grease residues and similar soiling.

**RAVENOL Premium Wash and Seal** leaves an impressive shine on the cleaned surfaces and additionally seals the treated surfaces. Individual drops, larger amounts of water and dirt are directly repelled by the resulting repellent effect and flow off the surface.

**RAVENOL Premium Wash and Seal** is suitable for both unsealed and sealed paintwork. The ingredients are gentle on existing coatings and support them in their effect. Unsealed paintwork is preserved and protected by the sealing components it contains.

## Application instructions

**RAVENOL Premium Wash and Seal** should be shaken before use. Depending on the degree of soiling, mix with warm water and wash the entire vehicle from top to bottom with a highly absorbent sponge or similar. If using washing gloves, increase the dosage slightly; the RAVENOL Microfiber Glove is also suitable for this application. Then rinse with clear water and dry from top to bottom with e.g. the RAVENOL Microfiber Drying Cloth Twisted Loop.

Note:

**RAVENOL Premium Wash and Seal** should be stored in sealed containers in a dry and cool place. Protect from direct sunlight, heat and frost. Keep out of the reach of children. Wash hands thoroughly after use. Do not apply on hot surfaces and do not let it dry.

**Dosage:**

Depending on the soiling, add 20-100ml to 10L warm water:

### Soiling In Outdoor Application Mixing Ratio

light soiling	1:500
medium soiling	1:200
heavy soiling	1:100

## Characteristics

- Extensive cleaning effect
- Impressive gloss finish
- Sealing with water-repellent effect

- Gentle on all paints and coatings
- Supports existing coatings
