

RAVENOL Petrol Quality Protect

Kategorie: Additives

Artikelnummer: 1390208

0.3L | 1390208-300

RAVENOL Petrol Quality Protect contains an innovative ingredient, which ensures the general quality of the fuel.

RAVENOL Petrol Quality Protect effectively prevents and reliably protects against age-related deposits and binds condensate in fuel.

RAVENOL Petrol Quality Protect improves start performance even after extensive periods of inactivity.

Application instructions

RAVENOL Petrol Quality Protect is added to the petrol before refueling.

Area of application:

- Petrol-operated engines
- For storage and overwintering purposes and to prevent start problems after longer standstill periods
- In the event of increased fuel consumption
- For all 2-stroke and 4-stroke engines
- For campers, lawn mowers, vintage vehicles, boats and chainsaws etc.

Application:

Pour the contents of the container into the tank, then fill up. One Container of **RAVENOL Petrol Quality Protect** is sufficient for fuel volume up to 60-75 l of petrol.

RAVENOL Petrol Quality Protect contains effective antioxidants, to prevent the fuel from ageing prematurely.

Characteristics

- Improved starting behavior
- Excellent long-lasting corrosion and ageing protection
- Prevents the formation of deposits in the fuel system
- Ensuring fuel quality
- Effective water binding
